Expenses & PATENT BOX

Expense control

- Enter your IP budget data and report IP expenses at your desired level of detail

License agreements

- Allocate license agreements to related patents or/and trademarks and control license income

Products

- Allocate product sales to patents (implemented patented technologies)

Expense reports

- Run an expense report on a monthly basis. The report is generated as word file and can be reworked before sending.
- Received invoices within a period are made accessible as link or as email attachment.

Reports on demand

- Any kind of reports can be quickly set up, such as the patent portfolio in a specific field or division, latest filed patents or invention disclosures, patents or trademarks valid in a certain country or region, history of a patent or trademark case etc.
- Reports include main images and weblinks.

REPORTS

Software provider and user.

Thomas Sütterlin (owner)

Dipl. Masch.-Ing. ETH

Since more than 20 years active in IP portfolio management, conducts patent searches and provides support for patent exploitation.

Advises technology companies as well as associations and institutes.

"RiPORT is our newest software tool to complement [Tegnosis](#), which has been continuously developed since its introduction in 2006."
